## **Pollution Solutions works for your family's safety**

We specialize in well water and city water. We also offer air treatment services. Protecting you from bacteria, mold spores and viruses. Our filtration units are sub-micron and will protect your family from pollutants.

### **Air treatment Services**

Filters and sterilizing units to eliminate, mold, allergens and bacteria from your indoor air. Our PSUV air steralizer is eight times more powerfull than traditional UV germicidal lights.

## **Our Services (CITY AND WELL WATER)**

- Call now, present the coupon and for no charge we will come to your home and do a basic analysis of your water which includes testing the minerals, iron, calcium, magnesium. We will also evaluate your existing equipment and make recommendations. We offer complete chemical and bacteria tests for a laboratory fee.
- Monthly or quarterly check up service of equipment which includes filling of chemicals and salt for your softeners. Our customers have found this saves them time and cuts costs by maintaining their equipment so they always have safe and clean water.

### **Why Us?**

We are a local company that has been serving the Pinecrest and South Florida area for over 30 years. We guarantee personal service and satisfaction. We match competitors' prices and want to keep you and your family happy with our service. References are available upon request.

### **Well Water**

High counts of iron and sulfur.(rotten egg smell) Main problem- staining of appliances, dry skin and hair. High calcium and iron which makes it difficult to get the dishes looking clean.

### **City Water**

High counts of chlorine and THM's (trihalomethanes) which are cancer causing agents are found in city water. These chemicals are on the EPA's list for a high priority pollutant. South Florida has the highest chlorine levels of any city in the United States.
